Thanks. I'll send it to the Oregon folks and cc most (but not all) of the others. I thought there might be more from Oregon than just Don and Gene. If you think I missed anyone critical in either the "to" or "cc" field, feel free to forward it to them.

Subject: Email List for Distribution of EPA/NOAA Comments on Draft TMDL Urban Impl Plan Guidance to ODEQ

Don:

Here is my list:

To:  
Alan Henning  
allison.castellan@noaa.gov  
Don Waye  
FOSTER.Eugene@deq.state.or.us  
Robert Goo/DC/USEPA/US@EPA  
YON.Donald@deq.state.or.us  
Rick Seaborne  
Jayne Carlin

cc:  
David Powers  
David Croxton  
Helen Rueda  
Jennifer Wu

Am I missing anyone?

Jayne

Yes, actually. That would be helpful, since I know we had a different cast in October than on our most recent call with Oregon this month...

Hi Don,

You did a great job revising comments and inserting your own. Once you addressed Allison's comments, go ahead and send out the comments to ODEQ. Do you need the list of folks who participated in the call?

Cheers,

Jayne and Allison,

Thank you both for your messages. I expanded on the version that seems mostly comprised of Allison's comments and tried to clarify/consolidate the bits that Jayne added.

If you read over the attached version and provide concurrence, I'll send it around to the Oregon folks.

Subject: EPA/NOAA Comments on Draft TMDL Urban Impl Plan Guidance to ODEQ?

Hi Don,

I believe you agreed to send our written comments on Oregon's draft TMDL Urban Implementation Plan Guidance to ODEQ as you wanted to add a few more of your own. I have attached Allison's comments (with some of my comments incorporated-- unfortunately I cannot understand many of my notes) as a starting point.[attachment "TMDL IP Dev for Urban & Rural Residential Land Uses Cmts.doc" deleted by Don Waye/DC/USEPA/US]

The following is from the May 12, 2010 letter....

**New Development:**

Complete TMDL Implementation Guidelines for the Coastal Nonpoint Program management area that incorporate the new development management measure requirements or practices consistent with the new development measure. Please provide NOAA and EPA with drafts of the guidance to review to ensure the final product will meet Coastal Nonpoint Program requirements.

Submit a strategy and schedule for completing and updating TMDL Implementation Plans within the Coastal Nonpoint Program management area to be consistent with the new TMDL Implementation Guidance.

Cheers,
